U.S. Coast Guard Documentation Data

Vessel documentation is a national form of registration, which is different than individual state registration requirements. Boats over 5 net tons (generally boats 25ft in length, or larger) in navigable US waters may be documented with the US Coast Guard. Our reports include historic and current US Coast Guard documentation data as it is reported to us.

No US Coast Guard Documentation Data Available

This boat has not been documented with the US Coast Guard or has been documented without a valid HIN.

If your report is missing USCG Documentation information, it could be because the boat was not documented, or was documented using an incomplete or invalid HIN. Prior to 1995, USCG documentation records were not digitized and are therefore not available in our reports. USCG began recording Certificate of Documentation issue date and expiration date in 2002. The absence of an expiration date, or when an expiration date is passed, does not necessarily indicate a vessel is out of documentation, but rather that the boat has been put into investigative status which could indicate pending, removal or transfer of ownership.

State Data

Boat History Report® works with every state's Department of Motor Vehicles and Department of Natural Resources to collect additional boat details. The information shown below was gathered and represents details in addition to the information that has been displayed throughout other sections of your report.

No Additional Data Available

No additional details have been provided to Boat History Report®.

If your report is missing State Registration information, it could be because the state registered the vessel using an incomplete or invalid HIN. Also, depending on the state the vessel was registered in, we may not be permitted to share the information in the report due to privacy laws.

US Customs & IRS Seizure

Boats are constantly seized by U.S. Customs due to illegal activities. Many times these boats are neglected by previous owners and incur serious damage during the seizing activity.

✔ Congratulations! US Customs & IRS Seizure Check Clear

No IRS or Criminal Seizures have been reported to Boat History Report.

Boat History Report® depends on US Customs & IRS Seizure data from government and independent sources. Based on the data acquired and provided to us by multiple private and public sources, US Customs & IRS Seizure incidents that have been reported on this watercraft will appear in this section. However, not all US Customs & IRS Seizure incidents are reported to Boat History Report®. Therefore, it is recommended to have a professional inspect this boat before you purchase.

Additionally, events in the vessel's history could void its warranty, and are not accounted for in the Boat History Report Warranty Check. These events include, but are not limited to, reported or non-reported accidents, hurricane damage, any other damage, or ownership transfers which may decrease or void warranty coverage.
